

# WIPING OUT HIV

# IN PERSON

The **Person County HIV/AIDS Task Force** is dedicated to educating and informing people living in Person County on the prevention of HIV/AIDS. The Task Force also seeks to connect people with the resources they need.

That means:

-  Teaching people on how to protect themselves from HIV/AIDS
-  Educating people about the disease itself
-  Helping those living with HIV/AIDS find the guidance and care they need
-  Encouraging the community to become informed and support people living with HIV/AIDS

Programs available for Person County youth:

***Making A Difference*** - An abstinence based approach to HIV/STDs and teen pregnancy prevention.

***Making Proud Choices*** - A Safer-sex approach to HIV/STDs and teen pregnancy prevention.

***Be Proud! Be Responsible*** - Strategies to empower youth to reduce their risk for HIV/AIDS.

Starting in January 2009 the Person County HIV Task Force will be meeting on the 3rd Tuesday of each month at Noon at the Person County Health Department.

Anyone interested in learning more about the HIV Task Force should call Becky Nowachek at 336-597-2204 ext. 2274.
